

Chukwuma Stanley Ogbedelet

Dietitian & Product Designer

Mrchukstanley3@gmail.com | +234 813 660 3480 | Lagos, Nigeria

Profile

I'm a Human Nutrition and Dietetics graduate with a passion for creating practical and user-friendly digital products. I enjoy building solutions that make everyday life easier and more enjoyable. With a mix of creativity, problem-solving, and a user-first approach, I'm excited to bring ideas to life.

Education

Bachelor of Science in Human Nutrition and Dietetics

2019 – present | Oyo, Nigeria

University of Ibadan

- I completed courses such as Nutritional Sciences, Clinical Nutrition, Dietary Planning and Therapy, and Public Health Nutrition.
- Conducted an undergraduate project titled "Assessing The National Home Grown School Feeding Program's Impact on the Dietary Outcomes Among School Food Vendors in Osun State"

Courses

Complete UIUX Design Course

Altschool

- Currently enrolled

Professional Experience

Volunteer (Product designer)

2024 | Enugu, Nigeria

Stone_Code

- Worked closely with a client to design Eden Hotel, a seamless and user-friendly hotel booking app that simplifies room reservations, payment processing, and booking management. I focused on creating a solution that enhances the user experience by making hotel bookings faster, more intuitive, and easy.

Sales Manager

2022 – 2023 | Lagos, Nigeria

Pinky Stores

- Built and maintained strong customer relationships to drive retention and satisfaction.
- Developed and executed sales strategies to achieve and exceed revenue targets.

Field worker

2020 – 2021 | Asaba, Nigeria

General Steel Mill

- Operated and maintained machinery and tools used in steel manufacturing.
- Work collaboratively with team members to meet daily production targets.

Teacher

2018 – 2019 | Lagos, Nigeria

Patriotic Nursery and Primary School

- Assessed student progress through assignments, tests, and interactive activities.
- Created an engaging and inclusive classroom environment that promotes active learning.

- Provided guidance and support to help students overcome challenges.

Projects

Assessing The National Home Grown School Feeding Program's Impact on the Dietary Outcomes Among School Food Vendors in Osun State

BSc Project

- This project aims to assess the national home-grown school feeding program's impact on the dietary outcomes among school food vendors in Osun State.
